ABOUT US

Your manufacturing partner in Bangalore.

At Goclean Products Pvt. Ltd., we manufacture and supply a wide range of laboratory chemicals, analytical reagents, indicator papers, and specialty products. We are not a distributor — every product is manufactured at our Peenya Industrial Area facility, by our team, to our quality standards.

PRODUCT RANGE

Indicator Papers & Laboratory Testing Products

Litmus Blue Paper

High-quality blue litmus paper for rapid acid-alkali identification in laboratory and educational applications.

Litmus Red Paper

Reliable red litmus paper designed for quick alkali detection and routine analytical testing.

Turmeric Paper

Natural indicator paper widely used for borate and alkali detection in laboratories and educational demonstrations.

Mercuric Chloride Paper

Specialized indicator paper used in analytical and laboratory testing applications.

Lead Acetate Paper

Indicator paper suitable for hydrogen sulphide detection and various qualitative analytical procedures.

Indicator Papers (1–14 Wide Range)

Universal pH indicator paper providing rapid pH determination across the complete pH scale.

Indicator Papers (0–10 Wide Range)

Wide-range pH indicator paper designed for accurate testing in acidic to neutral environments.

Starch Iodide Paper

Sensitive indicator paper for oxidizing agents and chlorine testing.

Buffer Powder (pH 4, 7 & 9.2)

Standard buffer powders for calibration of pH meters and analytical instruments.

Laboratory Chemicals & Analytical Reagents

Starch Soluble

High-purity soluble starch suitable for analytical laboratories, microbiology, and educational institutions.

DPX Mountant

Premium mounting medium for permanent preparation of microscope slides.

Borate Compounds

Calcium Borate, Ammonium Borate, Barium Borate, Magnesium Borate, Zinc Borate, Lead Borate — high-quality borate compounds suitable for laboratory, research, and industrial applications.

Oxalates

Calcium Oxalate, Magnesium Oxalate, Barium Oxalate, Zinc Oxalate, Copper Oxalate — laboratory-grade oxalates manufactured under strict quality standards.

Sodium Potassium Tartrate — 99% / A.R. 99.5%

Suitable for analytical, pharmaceutical, and laboratory applications requiring high purity.

Acetate Salts

Calcium Acetate Dried (93–95%), Copper Acetate LR, Sodium Acetate Trihydrate, Sodium Acetate Anhydrous — high-quality acetate salts for laboratory and industrial applications.

Sodium Oxalate — 99%

Analytical-grade reagent suitable for volumetric analysis and laboratory use.

Biuret

High-purity reagent suitable for laboratory analysis and educational use.

Phenolphthalein Indicator Powder

Analytical-grade indicator for acid-base titrations and laboratory applications.

Urea LR

Laboratory reagent suitable for analytical and educational applications.

Laboratory Cleaning & Maintenance Products

NICEKLEEN

General-purpose laboratory cleaning solution formulated for effective cleaning of laboratory surfaces and equipment.

Yellow Ammonium Sulphide Solution

Prepared laboratory reagent manufactured under controlled quality conditions.

Spillage Mops

Convenient laboratory spillage cleaning mops designed for safe handling of chemical spills.

Why Choose Goclean Products Pvt. Ltd.?

- High-quality laboratory chemicals and reagents
- Stringent quality control during manufacturing
- Consistent product performance
- Suitable for educational, research, pharmaceutical, biotechnology, and industrial laboratories
- Direct manufacturer — bulk supply available
